Art Unit: 3764

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-22, drawn to a method of presenting on a network exercise device, classified in class 434, subclass 247.
 - II. Claims 23-44, drawn to a computer program, classified in class 345, subclass 418.
 - III. Claim 45, drawn to an apparatus having a means for providing an exercise device, classified in class 482, subclass 8.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions s I, II and III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Timothy Porter on 9/20/02 to request an oral election to the above restriction requirement, but did not result in an election being made

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
